- Stage 3

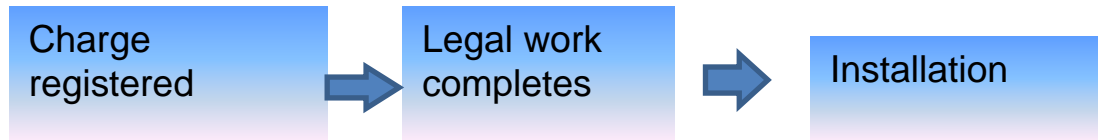

Figure 1: RE-Charge Scheme Chronology

Year 1 Figures

- 257 applications rec'd
- 128 Home Surveys
- 19 referrals to Warm Zone
- 91 offers issued

- 350 t/CO₂ p.a expected to be saved

Technology	No. of jobs
Solar PV	75
Solar thermal	29
Biomass	6
GSHP	5
Total	115

Legal Issues

- Guiding principals: Simple, low cost, easy to follow
- 2 tier cost structure
- No personal charges
- 'Tidying' Land Register
- Some amends to contracts upon request

Looking forward...

- Continue installing year 1
- Commence Year 2
- Fuel Poverty target
- BME target
- Support demonstration applications
