## Footnotes:

- 1.The occupancy rating provides a measure of under-occupancy and overcrowding. For example a value of -1 implies that there is one room too few and there is overcrowding in the household. It assumes that every household, including one person households, requires a minimum of two common rooms (excluding bathrooms).
- 2.General health refers to health over the last twelve months before the Census (29 April 2001).

## Footnotes:

- 1.A carer is a person who provides unpaid care.
- 2.The term 'care' covers any unpaid help, looking after or supporting family members, friends, neighbours or others because of long-term physical or mental ill-health or disability or problems relating to old age in a typical week.
- 3.For the Census, part-time is defined as working 30 hours or less a week. Full time is defined as working 31 hours or more a week.
- 4.Economically inactive includes carers under 16 and over 74.
- 5.'Total working' excludes full-time students who are working.

## Footnotes:

1. The term 'no qualifications' describes people without any academic, vocational or professional qualifications. The term 'lower level' qualifications is used to describe qualifications equivalent to levels 1 to 3 of the National Key Learning Targets (i.e. GCSE's, O levels, A levels, NVQ levels 1-3). The term 'Higher level' refers to qualifications of levels 4 and above (i.e. first degrees, higher degrees, NVQ levels 4 and 5, HND, HNC and certain professional qualifications).

2. 'Other economically inactive' includes looking after home/family, permanently sick or disabled and other.

## Footnotes:

1. The occupancy rating provides a measure of under-occupancy and overcrowding. For example a value of -1 implies that there is one room too few and that there is overcrowding in the household. The occupancy rating assumes that every household, including one person households, requires a minimum of two common rooms (excluding bathrooms).

## Footnotes:

1. Social grade is the socio-economic classification used by the Market Research and Marketing Industries, most often in the analysis of spending habits and consumer attitudes. Although it is not possible to allocate Social Grade precisely from information collected by the 2001 Census, the Market Research Society has developed a method for using Census information to provide a good approximation of Social Grade.

## Footnotes:

1. The terms used to define tenure are defined as:

'Owned': either outright, owned with a mortgage or a loan, or paying rent and part mortgage (shared ownership);

'Other social rented' includes rented from Registered Social Landlord, Housing Association, Housing Co-operative and Charitable Trust;

'Rented from council' refers to rented from council (local authority)/Scottish Homes in Scotland and Northern Ireland Housing Executive in Northern Ireland;

'Private rented' - renting from a private landlord or letting agency, employer of a household member, or relative or friend of a household member or other person;

'Living rent free' could include households that are living in accommodation other than private rented.

2. The 'occupancy rating' provides a measure of under-occupancy and overcrowding. For example, a value of -1 implies that there is 1 room too few and that there is overcrowding in the household. The occupancy rating assumes that every household, including one person households, require a minimum of 2 common rooms (excluding bathrooms).

3. Car or van availability includes any company car or van if available for private use.

4. Driving a car or van includes sharing driving and car-pooling in Northern Ireland.

5. 'Other living arrangements' includes: in a household with two or more people but not part of a couple.

6. The term 'unpaid care' covers any unpaid help, looking after or supporting family members, friends, neighbours or others because of long-term physical or mental ill-health or disability or problems relating to old age.

7. 'General health' refers to health over the twelve months prior to Census Day (29 April 2001).

## Footnotes:

1.The terms used to define tenure are defined as:

'Owned' - owned outright, owned with a mortgage or loan, or paying part rent and part mortgage (shared ownership); 'Social rented' includes rented from the council, registered social landlord, housing association, housing co-operative and charitable trust; 'Rented from the council' refers to rented from the council (local authority)/Scottish Homes in Scotland and Northern Ireland Housing Executive in Northern Ireland; 'Private rented' - rented from a private landlord or letting agency, employer or a household member, or relative or friend of a household member or other person; 'Living rent free' could include households that are living in accommodation other than private rented.

2.The 'occupancy rating' provides a measure of under-occupancy and overcrowding. For example, a value of -1 implies that there is 1 room too few and that there is overcrowding in the household. The occupancy rating assumes that every household, including one person households, require a minimum of 2 common rooms (excluding bathrooms).

3.Car or van availability includes any company car or van if available for private use.

1.The terms used to describe tenure are defined as:

Owned: either owned outright, owned with a mortgage or loan, or paying rent and part mortgage (shared ownership). Social rented include rented from Council, Registered Social Landlord, Housing association, Housing Co-operative and Charitable Trust. 'Rented from the Council' refers to rented from Council (local authority), Scottish Homes in Scotland and Northern Ireland Housing Executive in Northern Ireland. Private rented: renting from a private landlord or letting agency, employer of a household member, or relative or friend of a household member or other person. 'Living rent free' could include households that are living in accommodation other than private rented.

2.The occupancy rating provides a measure of under-occupancy and overcrowding, For example a value of -1 implies that there is one room too few and that there is overcrowding in the household.

3.Car or van availability includes any company car or van if available for private use.

## Footnotes:

1.The terms used to describe tenure are defined as:

Owned: either owned outright, owned with a mortgage or loan, or paying rent and part mortgage (shared ownership). Social rented include rented from Council, Registered Social Landlord, Housing association, Housing Co-operative and Charitable Trust. 'Rented from the Council' refers to rented from Council (local authority), Scottish Homes in Scotland and Northern Ireland Housing Executive in Northern Ireland. Private rented: renting from a private landlord or letting agency, employer of a household member, or relative or friend of a household member or other person. 'Living rent free' could include households that are living in accommodation other than private rented.

2.The occupancy rating provides a measure of under-occupancy and overcrowding, For example a value of -1 implies that there is one room too few and that there is overcrowding in the household.

3.Car or van availability includes any company car or van if available for private use.
