EU Funding

Between 2007 and 2013, Kirklees organisations will be eligible for funding under the new ERDF Competitiveness Fund, which replaces Objective 2 funding; and the ESF Employment Programme, which replaces the former Objective 3 programme. Both strongly echo the aims of the Lisbon Agenda with their focus on sustainable growth and jobs.

From a total **Competitiveness Fund** award for Y+H Region of €583,581,000 South Yorkshire has been awarded €270m and the rest of the region will share €312.54m. All parts of the region are eligible. These funds are focussed on the promotion of innovation, R&D, entrepreneurship and business growth, with an emphasis on the knowledge economy. The Programme will be managed through Yorkshire Forward.

The **ESF Employment Programme** in Y&H is being delivered through a Framework developed by the Regional Skills Partnership, which will support and inform delivery to add value to regional employment and skills priorities. Over 7 years, the Programme will provide around £122m for South Yorkshire and £146m for the rest of the region.

This will be matched with public funding, mainly through co-financing by the LSC and Jobcentre Plus. Activities within the programme will be centred on extending employment opportunities for those currently inactive and developing a skilled and adaptable workforce.

Railway electrification

Funding to electrify the North Transpennine route was announced November 2011 in the Governments' Infrastructure Plan. The cross-Pennine rail route connects Leeds and Huddersfield with Manchester, Merseyside and the North East. Journey times between Leeds and Manchester are expected to fall from around an hour to under 45 minutes. Research (Yorkshire Transport Study) has shown that quicker journeys will boost productivity and help to build the economy of West Yorkshire and the Leeds City Region.

Electrifying the route will make it an attractive alternative to the M62 reducing congestion on an often overcrowded motorway. As many as six trains an hour will run via Huddersfield from Leeds to Manchester, and local stopping services would also benefit from newer rolling stock and reduced journey times. Electrification of the route is expected to be completed by 2018.

Kirklees 4 Business

A business support funding website for the Kirklees area is available at www.open4business/kirklees/default.aspx.

Registration is required.

Huddersfield Waterfront

Plans to transform the Huddersfield Waterfront have received a major boost with the approval of funding for a new campus for Kirklees College. The national Learning and Skills Council (LSC) is a significant contributor to the new £85 million campus on the edge of the town centre, one of only 12 schemes in the country to receive the green light out of 144 which applied.

The College, which is due to be opened in the 2012-13 academic year, will form the centre-piece of the Waterfront Quarter scheme, for which the Council has already granted outline planning permission. The project would redevelop land between Manchester Road, Chapel Hill, and the River Colne to a mix of teaching accommodation, commercial offices, restaurants, a crèche, and residential apartments.

The new buildings will be arranged around a new public square alongside a newly revealed section of the Huddersfield Narrow Canal and landscaped walkways/cycleways. The lead developer is Strategic Sites Ltd (SSL) whilst Ramsden and Colne Developments LLP would deliver the housing element.

Private sector investment will be £65 million and provide space for around 1,000 jobs and just over 300 residential units. Sellers Engineers Ltd has relocated to new premises, but remains within the town, safeguarding 70 jobs. For more information about Huddersfield Waterfront see <http://www.waterfrontquarter.co.uk>.

Environment

Kirklees is the third largest Metropolitan District in area - it covers 157 square miles or 40,860 hectares. 4,574 hectares or 11.2% of the district is in the Peak District National Park.

The extremes of altitude in Kirklees range from 33m (108 ft) at Thornhill Lees to 582m (1903 ft) at Black Hill.

The local economy

Employer Survey 2011: Summary of main findings

One third (33%) of businesses reported their turnover to have grown in the last 12 months, with 28% having experienced a decline (a balance of +5%). In 2009, 24% had experienced a growth in turnover and 42% a decline (a balance of -18%). 15% of businesses had seen employee numbers increase over the past 12 months, while 17% had seen employee numbers decrease – a negative balance (-2%). This, however, demonstrates an improving picture to that recorded in 2009 (negative balance -9). Just 8% of businesses claimed to have skills gaps, with 32% of those referring to a lack of technical, practical or job-specific skills. 52% of businesses rated their local area as a 'good' or 'excellent' place in which to do business, though businesses in Dewsbury were less likely to do so (31%). Access to transport links was the most commonly cited main benefit of the location of the business, followed by access to markets/bordering cities.

Health

The Kirklees district is served by one Primary Care Trust. From April 2013 responsibility for the commissioning of local health services will pass to Greater Huddersfield Clinical Commissioning

Group and North Kirklees Clinical Commissioning Group. At the same time responsibility for public health will pass to Kirklees Council. The district is also served by two acute NHS hospital trusts:

Calderdale & Huddersfield NHS Foundation Trust and The Mid Yorkshire Hospitals NHS Trust (which includes Dewsbury), and one mental health NHS Trust - South West Yorkshire.

Joint Strategic Needs Assessment

From April 2013 all Health and Wellbeing Boards will take on the statutory duty to work with the Council, CCGs and other partners to develop a Joint Strategic Needs Assessment (JSNA) for their district.

The JSNA provides an opportunity to look to the future – over the next 5, 10, 15 and even 20 years - so that we can start planning now for likely changes in needs. It focuses on the issues affecting the health and wellbeing of children, young people and adults in the district and how these might change over time, rather than what the Council or CCGs are currently doing to address these needs. The JSNA draws together a wide range of information from a variety of sources, both local and national

which analysed and assessed to identify the key issues for the Kirklees population. The JSNA forms the basis for planning service development and is seen as a key building block of the commissioning process.

Copies of the current JSNA summary and full document are available from:

<http://www.kirklees.gov.uk/jsna>

The 2010 edition is being updated and the new version will be available from April 2013. The JSNA is not a single, one-off exercise, but is an ongoing piece of work which will add to our commissioning “intelligence”.
