Hi William, the landscaping plan includes a significant level of native species planting and there are no further biodiversity issues.

Hi Jeff,

I would welcome your comments on this.

Good afternoon William

I attach the landscape proposal drawing for the above mentioned Planning Application for your consideration. I assume you will require a further extension of time for consideration of this additional information with your colleagues, I therefore grant an extension until Friday 10 April 10, hopefully this will be sufficient?

Regards
