Date Required By Planning:	18th August 2015

COMMENTS
<p>CONTAMINATED LAND</p> <p>The Contaminated Land Report submitted by the applicant – ref NG7620/WAR/SK, recommends that intrusive site works be carried out and therefore the following conditions are recommended –</p> <p>CLC2 <i>Submission of an Intrusive Site Investigation Report (Phase II Report)</i></p> <p>Further intrusive investigation is recommended in the Preliminary Risk Assessment NG7620/WAR/SK, therefore, development shall not commence until a Phase II Intrusive Site Investigation Report has been submitted to and approved in writing by the local planning authority.</p> <p>CLC3 <i>Submission of Remediation Strategy</i></p> <p>Where site remediation is recommended in the Phase II Intrusive Site Investigation Report approved pursuant to condition (CLC2) development shall not commence until a Remediation Strategy has been submitted to and approved in writing by the local planning authority. The</p>

Remediation Strategy shall include a timetable for the implementation and completion of the approved remediation measures.

CLC4 *Implementation of the Remediation Strategy*

Remediation of the site shall be carried out and completed in accordance with the Remediation Strategy approved pursuant to condition (CLC3). In the event that remediation is unable to proceed in accordance with the approved Remediation Strategy or contamination not previously considered [in either the Preliminary Risk Assessment or the Phase II Intrusive Site Investigation Report] is identified or encountered on site, all works on site (save for site investigation works) shall cease immediately and the local planning authority shall be notified in writing within 2 working days. Unless otherwise agreed in writing with the local planning authority, works shall not recommence until proposed revisions to the Remediation Strategy have been submitted to and approved in writing by the local planning authority. Remediation of the site shall thereafter be carried out in accordance with the approved revised Remediation Strategy.

CLC5 *Submission of Validation Report*

Following completion of any measures identified in the approved Remediation Strategy or any approved revised Remediation Strategy a Validation Report shall be submitted to the local planning authority. Unless otherwise agreed in writing with the local planning authority, no part of the site shall be brought into use until such time as the remediation measures for the whole site have been completed in accordance with the approved Remediation Strategy or the approved revised Remediation Strategy and a Validation Report in respect of those remediation measures has been approved in writing by the local planning authority.

CLC6 *Reporting of Unexpected Contamination*

In the event that contamination not previously identified by the developer prior to the grant of this planning permission is encountered during the development, all works on site (save for site investigation works) shall cease immediately and the local planning authority shall be notified in writing within 2 working days. Unless otherwise agreed in writing with the local planning authority, works on site shall not recommence until either (a) a Remediation Strategy has been submitted to and approved in writing by the local planning authority or (b) the local planning authority has confirmed in writing that remediation measures are not required. The Remediation Strategy shall include a timetable for the implementation and completion of the approved remediation measures. Thereafter remediation of the site shall be carried out and completed in accordance with the approved Remediation Strategy.

Following completion of any measures identified in the approved Remediation Strategy a Validation Report shall be submitted to the local planning authority. Unless otherwise agreed in writing with the local planning authority, no part of the site shall be brought into use until such time as the whole site has been remediated in accordance with the approved Remediation Strategy and a Validation Report in respect of those works has been approved in writing by the local planning authority.

CLC 7 *Footnote to be applied to all applications*

All contamination reports shall be prepared in accordance with CLR11, PPS23 and the Council's Advice for Development documents or any subsequent revisions of those documents.

NOISE

I have reviewed the noise report submitted by the applicant – ref 250YP. I agree with its findings and would advise the recommendation in the report be conditions, specifically the glazing and ventilation conditions.
