

Design & Access Statement for ATM Installation E017985 ATM Cardtronics Cashzone

No 1 Currency Exchange 1 High Street Huddersfield HD1 2LE Introduction

This Design and Access Statement has been prepared on behalf of Cardtronics Cashzone in support of an application submitted for the installation of an Automated Teller Machine and illuminated signage.

The initial purpose of the proposal is to provide 24 hour banking facilities for customers using No 1 Currency Exchange High Street Huddersfield.

As this installation is for an ATM within the existing external façade, some aspects such as “layout” and “Access” are of limited applicability.

Design Principles and Concepts

Design

The site is a Bureau de Change corner site on the High Street and New Street. The proposed ATM will provide direct and unobstructed access and is to be installed to the far left of the New Street shop front elevation as a through glass installation. A receipt bin is to be fixed to the left hand pier.

ATM fascia with Cashzone black and green polycarbonate surround signage.

Design Principals

The ATM is of a standard design as located in many areas throughout the UK and is accepted as a necessary facility. There are a number of mandatory standards which apply relating to the position of the ATM, it's visibility, ambient lighting, building structure, security features, ATM anchoring and ATM safe security and strength.

Scale

The dimensions of the installation are:-

ATM fascia with surround signage is set at a height of 430mm from the pavement level to the underside of the ATM fascia surround.

Fascia and surround signage Height 1379mm. Width 866mm. Signage to top of fascia in green acrylic with white internally illuminated lettering. Height 237mm Width 537mm

The display screen is carefully shielded from ambient lighting to prevent glare and reflection, ensuring a clear and sharp image is visual by both standing and seated users.

1 High Street Huddersfield is not believed to be within a Conservation Area or is a Listed Building.

Layout

The ATM will be installed at a suitable height in order that the cash dispenser can be easily accessed, in accordance with DDA regulations.

Landscaping

Due to the nature of the proposal, we feel the application will not benefit from any landscaping.

Appearance

The proposed ATM is a standard NCR 5884 design with Cardtronics Cashzone black and green surround with illuminated signage.

Access

The proposed ATM will have good access for the public. Due to the flat surface to the frontage and its position within the frontage.

The installation has been designed to anticipate and overcome the restriction that would prevent disabled persons from making full use of the service to be provided together with the needs of more vulnerable people from protection of attack and intimidation.

The ATM is to be set at a height that makes it accessible for wheel chair users. Key 5 has raised markings for blind persons to identify the centre key.

There is sufficient area in front of the proposed ATM for easy access and for pedestrians to pass an ATM customer without disturbance.

Crime Prevention

Cardtronics Cashzone carry out an end to end solution using Cash in Transit (CIT) and engineering staff, our security managers consider the following for every installation deliveries, parking outside the unit and line of sight of the replenishment for the staff.

Cardtronics Cashzone believe that their standard working practices and the implementation of the above crime prevention measures help to provide a safe and sustainable development.

Conclusion

The proposed ATM will have the principal benefit to the community of providing cash on demand to the customers of No 1 Currency Exchange High Street Huddersfield.
