Hi Sam,

The report is fine. Negligible potential for bats so no mitigation needed . The measures described in section 11 (described as mitigation, but in fact these are enhancement) of the report would likely provide ecological enhancement and I would recommend these works are undertaken.

Kind regards,

Tom Stephenson MCIEEM

Morning Tom,

Bat survey received.

Thanks
Sam

Hi Tom

Just got in and the data searches for Wildspur have come through. I've updated the report to reflect this. There are two roost records for Wildspur Mill but from 2003/04 and they are not tied

to species or even numbers. These records must pre-date the mill conversion and won't affect our survey

Regards

John

Hi John,

Thank you, great work.

I'll forward this onto the Local Authority and let you know of any comments you may have.

Best regards

Hi Tom

Please find attached bat survey report for Wildpsur Cottages. I have suggested some mitigation which the planners usually insist on in any case and if there are any questions from them, just pass them back to me for resolving

Kind regards

John Gardner

Tom ,

I would like to go ahead with this one thanks , seems much more reasonable and less complicated.

I can be available next Tuesday 11th for access to house, just need to know a time to be there.

you can give John Gardner my contact details if he needs to contact me.

Thanks,

Kind regards,

Andra

Hi Tom

Sorry about the delayed response, I've been in Wiltshire and Dorset for the past week on a photography trip. I spoke with the client last week re the survey and for a daytime scoping survey it would be £180 inclusive of travel, data searches and report. I've been trying to locate the property on Google maps to get an idea of what it is like as sometimes, it just makes sense to do a summer activity survey as that is often what the planners will ultimately request. The area looks to be good for bats but I think the client said it was an end terrace; depending on what the gable wall is like, it may well be possible to discharge the building on a single daytime visit. I can come and do the survey next week if required, just let me know what day suits best. Tuesday morning would be good for me.

Kind regards

John Gardner

: Hello,

We have been requested to submit a daytime bat survey as part of our Planning Application.

Please, can you provide a quotation for this service?

The application and site address is: 2017/90382 - 31, Wildspur Cottages, Sheffield Road, New Mill, Holmfirth, HD9 7ES

Please let me know if you require any further details to prepare a quotation.

Regards
