Control & Datum Information
Co-ordinates and levels are based upon OSGB 1936 National Grid (OSGB36) and Ordnance Survey Datum Newlyn (ODN).

They are derived using realtime on site GPS survey, that utilises the National Grid Transformation OSTN02 and the National Geoid Model OSGM02GB.

The data obtained for use in this drawing involved the use of realtime GPS survey and total station survey.

Contours are shown at 0.5m intervals.
