REF: AMENDMENT TO PLANNING APPLICATION – CROSS FIRS STREET

Dear Mike,

Following our telephone conversation, please accept this letter as confirmation of the submission of an amendment to planning application, whereby Meadows Care propose request to change the conditions stipulated on the original change of use planning approval. (2013/62/90679/W)

Meadows Care would like to accommodate four young people in the home rather than three. We believe this will make no significant difference to the day-to-day activity of the home (community, traffic, noise etc) and involve no material change to the building.

Should you have any concerns regarding this, please do not hesitate to contact me.

Kind Regards

Ian Bywater
