Subject: 2018/91406 Cross Lane Scholes

Hi,

Unfortunately due to a current "IT" issue, I cannot respond to this application on the correct KP20 response form, so please take this email as my official response.

I have reviewed the information provided in the application, namely:

ROLEC EV Site Layout Dwg no: 0204_20 dated 10/04/18

Spawforths Letter dated 27 April 2018

I am satisfied that there is sufficient information for me to recommend the provisional discharge of condition 18 of 2017/91361, however in order to fully discharge this condition, the EV charge points will have to be installed as specified. The condition is worded as follows:

The electric vehicles charging point approved shall be installed prior to the occupation of the building and thereafter be retained.

Please call or email if you have any queries

Kevin
