Attachments: Consultation Request 21_1107.docx.pdf

Dear colleagues

For us to run the Education calculation, we would need to know the number of dwellings proposed, that have 2 or more bedrooms. However – the application form suggests there are no changes planned to the number of residential units at this site.

If this is correct, and there are no houses to be built, then there will not be a comment from education.

Regards

School Organisation & Planning
