

About the application

Application number: 2018/91661	
What is the application for?:	Outline permission for residential development and facilitating engineering oper
Address of the site or building:	Land at Walkley Terrace and Brunswick Street, Heckmondwike
Postcode:	

User comments

Type of comment: An objection
<p>I am concerned about the impact the works will have on the hillside as I live above the site and if this will cause any land slippage. I also am concerned about the increase in traffic during the works with all the earth removal and bringing in the materials and from additional residents on an already congested route through the town. As a resident it is often difficult to cross from station lane across to church street. There is also the increased likelihood of road accidents with an increase in heavy machinery and trucks on local roads. As the developer is planning on using piles I would also like to object to the likely noise that this will cause. The noise from Ponderosa concerts carries up the hill so the noise of significant earth works and driving in of the piles will carry up here also.</p>
