What is the application for?:	Outline permission for residential development and facilitating engineering oper
Address of the site or building:	Land at Walkley Terrace and Brunswick Street, Heckmondwike
Postcode:	

## User comments

Type of comment: An objection
<p>My objection to this planning application is based on the impact this would have on the the streets around this area which are already congested. At peak times ie school beginning and ending streets around this proposed development are seriously disrupted and are often completely gridlocked. On Church Street, Horton Street and Brunswick Street cars are parked all day and to add another possible 120 vehicles into this area would be a disaster. It is not only the surrounding streets that would suffer as Heckmondwike Road is a main road into the town centre that again can be congested causing queues up to the traffic lights in the centre of town. I have followed the development of the sewerage works and the effects of the continual procession of wagons loaded with soil in and out has caused ( noise and pollution) I dread to think what would happen to the surrounding residential area if this development goes ahead.</p>
