

I am sending my objection regarding the following ref 2018/91661

I am sending this second time know from previously doing this I am against the following build why ??

- * Noise from the work site what will come along with it
- * Danger to Animals leaving there and breeding how would you like your home rammed down
- * Pollution from trucks machinery and many more I have children these things can bring on asthma and skin allergies why would I want this my family are currently well not wanting to gain illness
- * Building houses there WHY who needs loads houses been built here already not needed plus loads new houses built on white lee rd Heckmondwike these not needed and will be big houses which means familys with two or three cars more parking trouble.
- * People who look to buy theses houses come from far places just for place at Heckmondwike Grammar School which I believe unfair and ridiculous people of catchment area cannot even get a place like my children but top high flyer buy houses round here just to get their kids in then rent the house fact and why should Heckmondwike school just taken high flying students to make them look the best not on my kids live around corner and couldn't get a place not right. So the students who do go their are from Leeds ,Barnsley ,Wakefield and further so this means more cars traffic as they have to come in a car to keep up with the posh toffs and residents suffer as they block are roads park front of drives causes arguments and do they care not what so ever they ignore you and so do school how many complaints they get daily I dread to think I myself have argued with numerous p[arents for stupidity blocking which makes me late for my own kids as I have to take my Batley not round corner. Horton Street DONT NEED any more entrances houses or more cars as we are already FED UP AND NOT GIVING UP.
- * Last Part of Green Land between Heckmondwike And Ravensthorpe we need earth trees land to breath and to help our lives your trying to take it all we need scenery to enjoy for children to play and people to explore.
- * Massive environmental impact
- * Houses will be at risks of FLOODS can you not see this and am not a builder
- * More cars more traffic school hours horrendous and events in jenovah witness you cannot even see to turn at school times so dangerous cars every corner
- * NO ENTRANCE Needed in Horton Street why there ??? spoil a natural looking area and quite why??? why not main road side or better yet MARS
- *KIDS playing Horton street young ones will be dangerous trucks and etc entering daily
- *Doctor surgery over run hospitals and schools

I've listed reasons why its ridiculous to build house please re think your decision don't pass this could make a lovely walk area and attach to greenway walkers love it here and dog walkers children and I love the wildlife jay birds, , Squirrals loads of birds and more please don't take this away.
