

To whom it may concern

I would like to object to any changes to heckmondwike railway

I am a 34 single working mum ,myself and other use this area to walk ourpuppy and I also take my 8 year old son and the children in the street with Mealmost every night ..they play they laugh and have a great time looking at views and sunset ...we spend hour upon hour there...we walkin the snow the rain and sunshine and would love to continue this

Why take all our greenery and tranquil spots away from us

I grew up doing the same as my son and playing and walking around this area

The roads are busy enough and we are only a small town

What are we teaching our youth

And what are we taking away from our youth

I am strongly opposed to this

Thanks you
