

**Subject:** Planning Reference 2018/91661

To whom it may concern,

I am writing in objection to the above planning application.

Without doubt, if planning is approved, this will be detrimental for both local inhabitants and the environment.

This is due to:

- Increased congestion in Heckmondwike
- Excess noise
- Pollution
- Increased pressure on schools and number of places available
- Reduced green space
- Environmental impact, particularly the local wildlife

The application should not be approved.

Regards,
