To Kerklees Council

I am writing to object concerning the rail cutting in front of my Flat.

If this plan goes ahead. we will lose our only Green Space to keep the air less polluted from traffic. We already have heavy traffic in High St due to three schools. I am very upset to think we will have lots more pollution.

I have to have help crossing High St. More traffic and pollution in this area will be unhealthy for old people and children. Please think again before you accept this plan. Thankyou
