I am writing to strongly object about the development of the railway cutting in Heckmondwike. This is our only green space in the vicinity and is home to a lot of wild flowers and wildlife, owls ,foxes, bats ,insects which will be disturbed and scared away and will never return. Also traffic congestion is already beyond capacity in the area. Heckmondwike road already at a standstill at busy parts of the day. Then there is the noise , dust and pollution to contend with for the people living within yards of the development. Schools ,dentists and doctors surgeries are also full to capacity in the area so that should be taken into consideration as well . So I hope you take all these things into consideration and make the right decision to turn this application down for Heckmondwike and the people that live and work here.
