**Subject:** FW: Applicant meeting with locals

Hi all,

Please book in as an objection to 2018/91661

**Subject:** Applicant meeting with locals

Good morning,

I've just been told that the applicant for the infill and build at Walkley Terrace has set the date for the meeting with locals for Friday at 15:30.

Surely this cannot be correct and surely this cannot be allowed? The time of day when most people will be guaranteed to be unable to attend?

I was of the understanding this meeting was to be arranged so we could all sit down and discuss a way to make this work, not another underhand way to make sure it slips through?

After the felling of trees, deliberate fires, knocking down or walls, surely this shows why we are all fighting so hard? This is underhand and shows that this man has no interest in what is best or even what will work for the area? Just another example of why the public are so angered by this and his behaviour.

Please at least give us the chance to speak to them and don't let this ridiculous plan to cut as many people as possible go ahead.
