Good morning

I wish to express how annoyed I am about the current meeting it has been held at such short notice and at a time where it would interfere with the school run. I can not attend the meeting as I will be at the hospital attending an appointment for my husbands operation. A weeks notice is poor organisation which shows the type of people the developers are. Everything they have done from day one is underhand from making the land look neglected and un tidy to submitting plans at specific time of year hoping we will just let it pass.. it annoys me what we will have to suffer if this goes ahead. I personally think this is just a box ticking game here and have no real interest in how the surrounding neighbourhood will suffer it is not just our streets or a beautiful view that will suffer.

The schools doctors all will fail to provide a service for the Heckmondwike area something non of you will have to live with but we will.
