Subject: Heckmondwike railway cutting application

Dear sir I have just been told that the meeting being held is during the working day for this horrendous application. This is plainly absurd and I must protest I go through that area regularly and the traffic there is the worst I have seen at times, it is outrageous to even think of more housing there. I was going through there once and the road was blocked by inconsiderate parkers and if you say anything all you get is abuse they will not move. Also I notice that the church there is being converted to a sixth form area, if this is true even more traffic, don't forget that the grammar school there brings in people from all over and they have to bring cars to get their kids, if the council even considers this application they should be ashamed letting down so many people.
