**Subject:** 'Public Meeting' re: Development of the Railway Cutting at the bottom of Horton St and top of Brunswick St

Dear

I am writing to express our concern about the timing of the Public Meeting arranged by the developer to discuss the plans for the railway cutting at the bottom of our road.

If this is a genuine desire to consult the local residents who will be adversely affected by the preparation of the site, the building work and the extra burden of traffic upon the streets and roads surrounding the cutting, then why has it been arranged during the working day AND at key school picking up times? This will preclude many people from attending this meeting.

, and though I often do have non-teaching days that have enabled me to attend the last planning meeting at Huddersfield Town Hall, as I will be working although I will do my best to get a replacement - this is not ideal as children require consistency. so of course the lead up to Christmas is the firm's busiest time and

This proposed development will affect Horton Street and the surrounding area dreadfully both in the short and long term and it is appalling that the working population will not be represented because of the timing of the meeting.

I do hope that our voices can be taken note of - I know that you have been very supportive of the local feeling at previous meetings.

Kind Regards
