**Subject:** Planning application 2018/91661. Public meeting

Dear councillors

I had hoped to attend the above as the development is potentially

Unfortunately, like most people affected by this, I will now be at work.

I find it ridiculous that anyone can sanction a public meeting at a time when most of the affected public are unable to attend. You do not need me to tell you that most people will either be at work or collecting and looking after school children or stuck in Friday afternoon traffic, including the chaotic scenes at the end of the school day on the very roads where even more traffic is being proposed.

It is clear that the only purpose for a meeting at this time and place is to vastly limit the numbers of people attending.

This will not be a public meeting but a tick box exercise and as councillors I believe you have a duty to ensure that a fair and truly public meeting takes place at a time and place convenient to the public.

The time at 3 pm tomorrow could be put to good use by seeing for yourselves the parking and access issues around Horton St.. And that is before the proposal to increase the number of houses at the end of Horton Street 3 fold.

The proposal will negatively affect residents for the whole of their lives. Surely that deserves a fair hearing

Regards
