Dear

I attended the meeting held on Friday 14th December by Vida architects and Gordon Cookson.

Andrew Stoddart (architect) was insistent that their grounds for appeal for the above application are on the website. He was emphatic about this. We cannot see it on the application, nor can we find it anywhere else.

Please can you tell us where to find it, and send me a link/copy of the grounds of appeal as a matter of urgency.

I would also like to add to the record as many others have stated that the meeting was barely announced to members of the public. The time and place was deliberate to be off putting to parents collecting children from school or working.

They obviously didn't expect anybody as they put a whopping 9 chairs!

I would also like to let you know they held it in a venue with no heating on. For best part of 2 hours we sat/stood there. My phone said it was 0 degrees inside (I have a screen shot) my car said it was 4 degrees. Totally unacceptable, especially as there were some old age pensioners attending.

Please send me the information urgently.

Kind regards
