

AGE CCTV - Quotation

Date – 26th July 2018
Customer – MRH Ltd
Site – Salendine

Scope – Supply and install new HD network video system

Description –

Visit 1 – System removal as required.

Visit 2 – Install first fix cabling as required.

Visit 3 – Supply and install –

- 7 x Wisenet Q series HD 1080p internal dome cameras (3.6mm lens), to the internal areas, as per layout.
- 1 x Wisenet Q series HD 1080p infra-red bullet camera (2.8-12mm lens), to cover the external parking area, as per layout. To include back box and pole mount.
- 6 x Wisenet Q series HD 1080p infra-red dome cameras (2.8-12mm lens), to cover the external areas, as per layout (building mounted).
- 1 x Samsung X series 16 channel NVR, complete with 8TB of hard disk storage, to be set to record for minimum of 31 days, to be located in the office area, in main comms cabinet.
- 1 x 24" monitor to the office area. To be located on a wall mount bracket.
- 2 x 24" monitors to the sales floor area (console and front door), on ceiling mounted chrome pole brackets.
- 1 x HDMI 4ch decoder (to be housed in the ceiling, above the door monitor). Complete with 2m HDMI lead. To provide the image of the door camera at this monitor.
- Console monitor to show permanent 9-way multiscreen of the most important cameras.
- 1 x UPS unit, to protect the system from power surges.
- Commission system and program client / mobile connections as required. Provide training.

Notes and requirements –

- All prices exclude VAT.
- The Quote is based on AGE terms and conditions, available on request.
- A one year parts and labour warranty applies to this quotation. A three year warranty is available on some equipment.
- 240v supplies are required - two at each sales floor monitor location, and two at the main control point location.
- Cat5 cabling required to the non-building mounted cameras, as per layout. To terminate in the manager's office.
