

Doggy Day Care

Mount Pleasant Farm

Upper Hopton, W Yorkshire

Day Care Facility

Noise Management Plan

Prepared by Echo Acoustics

August 2019

This Plan sets out a series of measures intended to minimise the potential for disturbance to local residents adjacent to Mount Pleasant farm and the proposed dog day-care facility.

All staff must be briefed on the contents of this Plan and copy of this document is to be kept at the Facility for reference by staff members.

The following control measures have been agreed with the Facility Management and must be observed at all times:

1. Dogs will be accommodated in day lounges in small groups of no more than three.
2. Dogs will be supervised in small groups in the exercise area, not simply left to run free.
3. Any dog(s) that may become over-excited will be controlled or removed from the group to calm down.
4. Dogs arriving or leaving from the facility will not be able to see the dogs in the exercise area to reduce the potential for them to become over-excited.
5. The dogs will be interacted with several times a day to reduce boredom and potentially noisy behaviour.
6. Any dogs that prove to be persistent noisy dogs will not be able to continue to use the day care.
