I want to support the application because it's opposite to my business. it would improve the area in a positive way. Since the Barni's Ice cream opened it has made a massive difference to the outlook of the area. It will further improve Prior to applying for A3 consent Edin LED & DIY shop and then Bed shop tried but all these businesses failed so the hot food business will do well in the area. I have not observed any noise, rubbish or pollution in and around the area. Its lot more cleaner than before and has reduced other unsocial activities. I did not observe any trouble since Barni's opened in fact it has brought healthy environment and seen positive change in the street. I strongly recommend the approval of the said application.
