

SECTIONAL ELEVATION 1

This architectural drawing shows a cross-section of the building's exterior wall and roof. The roof is a steep gable with a central dormer window. The wall features a large, rectangular window with a small, square window above it. The drawing is a line art representation, showing the structural elements and the placement of the window and roofline.

This technical drawing illustrates a door handle assembly. The main view is a side elevation showing a vertical handle with a cylindrical grip and a rectangular base plate. A smaller, angled view to the right shows the profile of the handle. Below the main view, a top-down view of the rectangular base plate is shown, featuring a central rectangular cutout. The drawing is a line art representation with no shading.
