We live . We have inspected the plans and feel if this goes ahead, this will cause us much distress and loss of privacy. It will end up a very overbearing property and will overshadow us. We live in an area of mostly semi-detached houses and we feel that this plot is not big enough for the proposal of these plans. The proprietors have 3 young children with another baby on the way and will probably continue to make the house bigger add to accommodate their growing family. blocking out our skyline and day light. Please consider this objection. Kind Regards,
