Hi William

Can you use the condition below?. The work proposed within the Arboricultural Report is acceptable but any additional work will need to seek consent via the usual tree work application.

Details of any additional tree works to protected trees required during the construction process, that is not identified within the submitted information, shall be submitted to and approved in writing by the Local Planning Authority prior to the work being carried out. The works shall thereafter be carried out in complete accordance with the approved details.

***Reason:** To protect trees in the interests of visual amenity and to accord with the requirements of Policy NE9 of the Unitary Development Plan.*

Thanks
Nick

Hi Nick

I've had a look at the main report and, confusingly, part 3.2 (Work Priority) does not contain any works classed as "Urgent " or "Very High"

I have asked the agent to send me a more up to date version with the reference to a dangerous tree notification, and copy you in.
