Planning response.

In response to the planning application for Kingsgate Centre, Store 1, King Street, Huddersfield, HD1 2QB, 2018/93568

The business team recognises the investment brought into developing this site and the positive impact it will have on the local retail offer. We are not in a position to support the application, however, without a full understanding of the net impact on employment. No indication is provided in the application regarding job creation or loss associated with the various changes of use. With further clarification we would be happy to revisit this view.

Regards

Steve Moore
