<p>I strongly oppose this planning application. Castle Hill is an historic site much loved by the people of Kirklees and further afield. A development such as this must surely put additional strain on the site and surrounding area due to additional traffic, people and services required for the site to function.</p> <p>The roads around the area of the castle Hill site, particularly from Newsome and Lowerhouses are already overburdened with traffic and more traffic going to the Castle Hill site, not to mention heavy traffic during the construction phase, can only lead to the roads being more congested and dangerous than they already are.</p>
