

12 DEC 2018.

Dear Sir,

Reference application number 2018/93784.

I wish to put forward my objection to the proposed development. We are faced again with the cramped ad-hoc over development of a small area. Resulting in the overbearing and dominating impact of a building in close proximity to

The development is not in keeping with its surroundings. The impact on privacy and space will be greatly destroyed. It will bring more noise, pollution and congestion to the junction of Ramsey Close and Croston Road - which is becoming a dangerous road - due to speed, volume of traffic and an increase in pedestrians.

Yours Faithfully
