5. What Are You Applying For?

Are you seeking consent for works to tree(s) subject to a TPO? ☐ Yes ☐ No

Are you wishing to carry out works to tree(s) in a conservation area? ☒ Yes ☐ No

6. Tree Preservation Order Details

If you know which TPO protects the tree(s), enter its title below.

7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below: tree species (and the number used on the sketch plan) and description of work. If trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposal for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

We applied for work on the large eucalyptus in the front garden in the border to right of the house when facing the house along with other tree surgeons (Able) could not carry out the work as they felt there was disease to the base of the tree and they could also not use spillo to climb up.

We are now not sure whether we should be removing the tree entirely and whether it is safe to leave standing.
It is a beautiful tree but we are happy to go along with your judgement
