Subject: Correspondence for the attention of

15th May 2019

Dear Sir

Reference planning application 2019/62/90229/E

**Objection regarding application to build on land at 22 and 24 Prospect Terrace,
Liversedge**

the above planning application.

subject of

this only being by the use over a length of time.

We have made **no objection** to the planning application, but as the application was being prepared,

The road was originally a dirt track and was hard surfaced a couple of years ago. The road is not suitable for heavy machinery, both due to its construction and the fact that there are services under the road.

backed down the road to collect a digger from the applicants property.

The effect is that the road will be damaged to the detriment, which is their only access to their houses. Access to the site with machinery must be through the applicants property

We would like our comments noted on the application and this correspondence be acknowledged.
