Subject: Please stop the housing development

Dear Kirklees,

With reference to the planning application 2019/60/90377/E I would like to comment against it proceeding.

“I had the best upbringing a young lad could wish for here in our beautiful village. Fresh air, friendly neighbours and a great primary school.

I want the kids and young families that already live here to experience that as well!

I am sharing my love for where we live, I don't want it to slip into potential chaos. I want Shepley to be a shining example to other villages that the countryside is here to stay!”

I am not aware of how I can prevent this application from proceeding. What options do I have to stop this huge mass development of housing in my beloved rural village?

I hope I am contacting the right people. I apologise if this is an inconvenience to anyone.

Many Thanks,
