Dear Sir/Madam

We refer to our letter of Monday 24 February, 2020 advising you of our concerns regarding water and sewage at the above property.

Following recent discussion with Mr Napier we have a better understanding of the original indicative drainage plan dated 10 February 2019 in which the drainage services for the proposed property have been specified under 'Please Note'.

We are now satisfied with the proposed drainage plan and therefore request that our comments sent on Monday 24 February 2020 be withdrawn.
