Postcode:	HD2 2BP

User comments

Type of comment: An objection

Dear Sir/ Madam,

I am writing to expresses my opposition to planning proposal no 2019/90762.

I am opposed to this extension for the following reasons:

- due to the hight of the building it will result in loss of light
will effect the growth of existing plants and trees
- the extension and the planned elevation will impact our privacy in our garden due to overlooking
- the building itself will generate a huge amount of traffic jam on the busy road in front of our properties (be aware of the lack of nearby or onsite parking facilities)
- I am extremely concerned about the generated noise and dust pollution

. An extensive building could have a major impact on my general and mental health if I am unable to relax or use the garden due to the construction
- we also disagree with the layout of the proposed planning. It would touch the edge of our property, the existing fence would need removing and that would need replacing. This would also result damaging some already existing structural elements of our gate and driveway furthermore in the backyard it would damage our trees and their routes what could result their loss. This would result a huge financial and natural loss.

Please put these above reasons into consideration!

I look forward to your reply,

Yours sincerely,
