<p>This is only going to cause problems. The Green Belt is a protected area so it shouldn't be built on. There will be too many people and not enough space. I don't want to live in a city when it's been this way for years. It doesn't need to change. There will be more noise, wildlife will be affected, the landscape, traffic privacy of neighbours. It will impact so many things. Leave it the way it is.</p>
