Subject: RE: Application 2019/62/90988/W

I appreciate the period of comment has come to a close on the above planning application. I would, however, appreciate my thoughts to be potentially considered.

I am steering and also part of several non-profit groups in Marsden that focus on bringing foot fall to the area to aid the local businesses, as well as promoting wellness, lifestyle and activity. I was made aware of this application only recently and feel that it would be a big draw to our village and a great utilisation of a disused and unkempt area of land. As a unique element at the heart of our village, this facility could be widely used to attract walkers, runners and cyclers who are keen to stay and use the facilities in our area, and give other businesses a much needed boost.

I appreciate the concerns of neighbours on impact to their way of life, however, from what I have seen of the plans and knowing this area well, I cannot see what impact it will have in a negative way. This campsite will generally benefit the local area, bring people from the pennine way into our beautiful village while adding to our community. I have talked about it with a large number of people in this past few days who are looking forward to welcoming this into the village and I hope that it is something that we can attain.

I appreciate your time
