Dear Sir/Madam,

I am writing again to re-iterate my objections to the above planning application - which I have just heard from my neighbour has been re-submitted - and that comments must be submitted by Monday 13th Jan. I must say this is not enough time and as you seem to make a habit of

doing this I am wondering why
I am
sure there reasons. it would be
helpful to know what they are.

objections to the application remain
the same. Re - That the approach road
is narrow with no pavement

It is a poorly thought out scheme
as regards facilities. Toilet and washing
it will impact quite significantly
on people in the vicinity - as
in - noise - night time parking
playing music.

It will also have a very detrimental
effect on wildlife in the area.

Yours Faithfully
