Neil

Following our meeting on 4th February 2020 please find attached our revised drawing numbered 2018 541 03 Revision F and 2018 541 07 which should supersede the current drawings.

The scheme has been amended as follows:

- 1) A reception cabin has been included.
- 2) Drainage connections to the existing sewer have been included from each pod.
- 3) Discharge point to the same has been shown to allow camper van chemical toilets to be emptied.
- 4) Widened entrance to allow two camper vans to pass.
- 5) The 'boat pod' has been omitted reducing the number of pods to 4 No.

S.B.Homes Ltd will also be submitting their updated management arrangements in due course.

Meanwhile please let me know if you have any comments.

Regards
Bill
