Type of comment: An objection
The proposed developments are on the edge of the urban greenspace noted on the Kirklees Local Plan 2019. It also borders the north bank of the river Holme. The loss of trees due to this proposed development will have a significant impact on the local environment. From our house we note the river and its bank is home to herons, ducks, rabbits, bats and many other wild animals, this building will destroy the riverbank environment. Building houses of this size with only 2 parking spaces will add to the significant parking problems on Woodhead Rd and thus to the flow of traffic up this road. The are of Hinchliffe Mill is a conservation area and this design of building will be detrimental to the historical significance of the area.
