<p>It is highly regrettable that The Shears public house is not classified as a listed building given its association with the Luddite movement of the 19th century.</p> <p>Even more regrettable is the application for consent to demolish the building.</p> <p>I accept that The Shears is probably not currently being run as a viable commercial entity but, surely, it would be easier and more considerate to amend that and keep the premises (of historic interest) as a public amenity and in the manner to which they were originally intended.</p> <p>I object to this application.</p>
