<p>I object to the proposed planning permission for the property on the following grounds. The Shears public house is of historical interest to the area. It was the meeting place of the luddites and therefor should not be demolished lest we lose more of our history in the local area.</p> <p>The position of the building on Halifax Road at present creates little disruption to the traffic flow. If four residential properties were to be built, this would impact on the traffic flow .</p> <p>Four residential buildings would have a major impact on the sewerage and waste system in the area. 4 properties would have two bathrooms each and a much greater usage of water than at present .</p> <p>Most of the existing housing is older terrace properties. Without garage space. Any new build would not integrate into the existing surroundings.</p> <p>Demolishing the public house would reduce a local community space resulting in some social isolation for members of the public.</p>
