Type of comment: An objection
When will the want for quick monetary gain stop the destruction of our history! Everyone understands the need for development and progress but at what cost! Once it's gone it's gone and future generations are quite simply robbed of our living history! There must be a middle ground that means this building can be conserved, maintaining the existing historical street view and landscape image for this area is very important. A new build would destroy the existing character of the area completely, it quite simply must remain, even if the existing building is to be repurposed!
