**Date:** 03 April 2021 16:26:46

---

Dear Sir/Madam,

I received a letter today( April 3rd 2021) informing me of additional information to this planning application.

However, your website does not recognise the above planning application number so I am unable to access the new information.

However, you do not give much time for any comments ( by April 12th). Considering the fact that there is a public holiday during that time, and your letter or website is inaccurate, I think that the deadline should be extended to allow interested parties to view the amendments.

Please tell me why the Application number is not recognised so I may access the application and see the amendments.

I strongly object to the plan to demolish such an historic building and its association with the rights of the working man ( the Luddites).

Please register my objections in the strongest possible manner.

Yours faithfully
