

Consultation Response from KC Highways		
2019/91891 Dewsbury Moor ARLFC, Heckmondwike Road, Dewsbury Moor, Dewsbury, WF13 3NU		
Discharge conditions 6 (retaining walls), 7-10 (Phase II and Remediation) on previous permission 2016/91414 for erection of extensions and alterations		
Date Responded: 27/08/19	Responding Officer: CNB	Responding Ref: K14-6SE/3
INTERIM RESPONSE This application is for the discharge of conditions 6 to 10 of previous permission 16/91414. This response considers condition 6 (retaining structures) only. HDM cannot support the discharge of condition 6 for the reasons provided by my colleagues in the Kirklees Highways Structures team, as given below. “I would like to advise that condition 6 pertaining to the design of highway retaining structures at this site can not be discharged pending the receipt of detailed information required to establish whether a formal technical approval for the design of proposed retaining wall will be required.” With this in mind we request that condition 6 is not discharged at this time and we suggest that the applicant contacts the Highway Structures team manager to discuss the matter and hopefully reach a satisfactory conclusion. When agreement is reached between the applicant and the structures team then we will be able to re-assess our response.
