

Consultation Response from Biodiversity Officer**KC Ecology****2019/91911 Egypt Farm, Cliffe Lane, Gomersal, BD19 4EU****Discharge conditions 7 (Phase II Intrusive Site Investigation Report), 11 (bats), 12 (bats) on previous permission 2017/91596 for change of use of barn to 2 dwellings, erection of rear extension to existing cottage, demolition of existing cattle shed, erection of tractor and hay store and alterations to layout****Date Responded:****09/08/2019****Responding Officer:****Tom Stephenson****Responding Ref:****Assessment and Advice**

Conditions 11 and 12 are relevant to ecology.

The method presented in respect of in condition 11 is appropriate, but it must be stated in the document that a suitably qualified ecologist will be contacted in the instance of bats being found. If this amendment/addition can be made I have no objection.

No objection to the discharge of condition 12 based on the submitted information.
