Consent for the tree work specified in this Notice relates only to the Town and Country Planning Act 1990 and is in principle only. If the work to be undertaken relates to trees growing on land owned by a third party, permission must be obtained from that third party before undertaking any work which requires access onto or over their land.

TOWN AND COUNTRY PLANNING ACT 1990
Town & Country Planning (Tree Preservation)(England) Regulations 2012

NOTICE OF REFUSAL OF CONSENT TO FELL AND/OR PRUNE

Application Number: 2019/91962

In pursuance of its powers under the above mentioned Act and Regulations and the Tree Preservation Order made by the Kirklees Metropolitan Council (hereinafter called 'the Council') as Local Planning Authority and pursuant to the application submitted to the Council on 10-Jun-2019:-

THE COUNCIL HEREBY **REFUSES** TO CONSENT TO THE CARRYING OUT OF THE FOLLOWING OPERATIONS TO THE PROTECTED TREE(S) TPO 17/94/g2

At: 105, Westgate, Almondbury, Huddersfield, HD5 8XQ

Remove 3 or 4 sycamore trees located closest to the wall, due to wall damage. Trees are in poor condition and overhang the boundary wall.

The **REASONS** for the Council's decision to refuse to grant consent are:

1. Due to their location in view of Shape lane, a public right of way and the wider locality, these trees are prominent landscape features which contribute significantly to public amenity and the character of the local conservation area that they are situated in.
2. There was no evidence from an appropriate expert submitted with the application to show the wall can not be repaired while retaining the tree.
3. The wall appeared to be generally in poor condition due to age and construction, regardless of the proximity of trees.
4. There was no information submitted with the application regarding alternative construction solutions that would allow the trees and structures to co-exist.

5. There was insufficient evidence submitted with application with regards to investigation into alternative methods of remedial action.
6. Overhanging branches would not justify the felling of these trees and the resulting loss of public amenity that they provide.
7. There was no evidence from an appropriate expert submitted with the application to support the claim that the trees are in poor condition, as required by the application form.

Guidance Notes
Choosing a Tree Work Contractor
(Tree Surgeon)

The Council does not approve or promote any private contractors, nor does it affiliate itself with any specific companies. If any company says they are Council approved or trained you should seek clarification as to which Council it is referring to and if you are not satisfied check with the authority concerned.

There are schemes running which produce a directory of approved contractors and companies. The Arboriculture Association (www.trees.org.uk) and Trust Mark (www.trustmark.org.uk) are examples of such schemes.

If you are looking for a company or contractor to carry out tree work, tree pruning, felling etc. you should consider the following:

- City and Guilds/NPTC Qualifications (National Proficiency Test Council). The company should be able to produce certificates and a photo ID card (See example ID card below) to show that they have the relevant qualifications for the operations they are intending to carry out. There are separate qualifications for using a chain saw, felling different sized trees, climbing trees, operating a chain saw in a tree etc. It is the individuals who hold the qualification, so unless they are undertaking training, employees need to be qualified for the tasks they do.

  Example City and Guilds/ NPTC Photo ID card:

(Sample ID card provided by City and Guilds September 2015, the appearance of cards issued before this date may vary slightly but are still valid)

- The company should be able to show you certificates of insurance for public liability and where the company has employees, employee liability as well.

- The company must work to the British Standard for Tree Work, BS 3998 and should be able to quote this if you ask them what the British Standard is. If you propose to carry out work to a protected tree with consent from the Council, this will be a condition of the approval.

- Ask for a written quotation, a reputable firm will be willing to do this. It would be advisable to get quotes from several different companies.

- Membership of an arboricultural organisation does not necessarily guarantee a contractor's level of competency, which will depend on the organisations terms of membership. However it does indicate that they are keeping up to date with industry changes. Examples would be the Arboricultural Association or the International Society of Arboriculture.

- The company should be able to show you copies of Health and Safety documents for their work type, risk assessments, inspection records for their climbing and rigging equipment (where applicable) etc. This will indicate that they are compliant with national Health and Safety requirements.

If you are seeking advice on a tree's health or safety, you are advised to look for:

- A company which holds professional indemnity insurance. This gives a degree of security should there be an adverse incident as a result of their comments.

- A formal qualification in arboriculture, forestry, horticulture etc would give an indication that they have the required technical knowledge about tree biology and mechanics to be able to advise you correctly. There are many different formal qualifications available examples of a few would be: National Vocational Qualifications (NVQ), Diploma or a Degree.

- A person who holds LANTRA Professional Tree Inspector. This shows that the individual has passed an assessment to show that their tree inspection skills are in line with the national standard. Holders of this award will be able to show a photo ID card.

If you are engaging an arboricultural consultant to produce a tree report for example, as a minimum they should hold the above mentioned insurance and a formal qualification.
